

# TYMAC LAUNCH SERVICE DIVERTED THROUGH RECYCLING

# 90%

Tymac is proud to divert more than 90% of the waste it receives away from landfills. Where does it all go? Here are some examples of how different products can be recycled and turned into new products.

**Beverage Glass & Ceramics** - Processed into new materials such as Sandblasting Media

**Metal** - Recycling into new products such as Furnishings, Fixtures, Vehicles and Building Materials

**Food/Organics** - Composted for Soil & Energy Recovery

**Wood** - Recycled into Bark Mulch, Biomass Fuel and other products such as Horse Bedding

**Cardboard & Paper** - Re-purposed & Recycled into Container-board, Chipboard, Tissue Paper, Toilet Paper and various other pulp products

**Plastics** - Recycled into various new products such as New Bottles, Containers, Picnic Tables, Lawn Furniture and Playground Equipment

**Personal Protective Equipment** - Recover Plastics and Metals from various Personal Protective Equipment products such as Gloves and Masks

**Batteries** - Metals are Recycled for use in new products such as Batteries and Stainless Steel Products

**Carpets** - Recycled into new Carpet, Underlay and a wide variety of other plastic products

**Cooking Oil** - Recycled into Feed Ingredients which are used as Pet Food, Aquaculture and Livestock Feed Producers

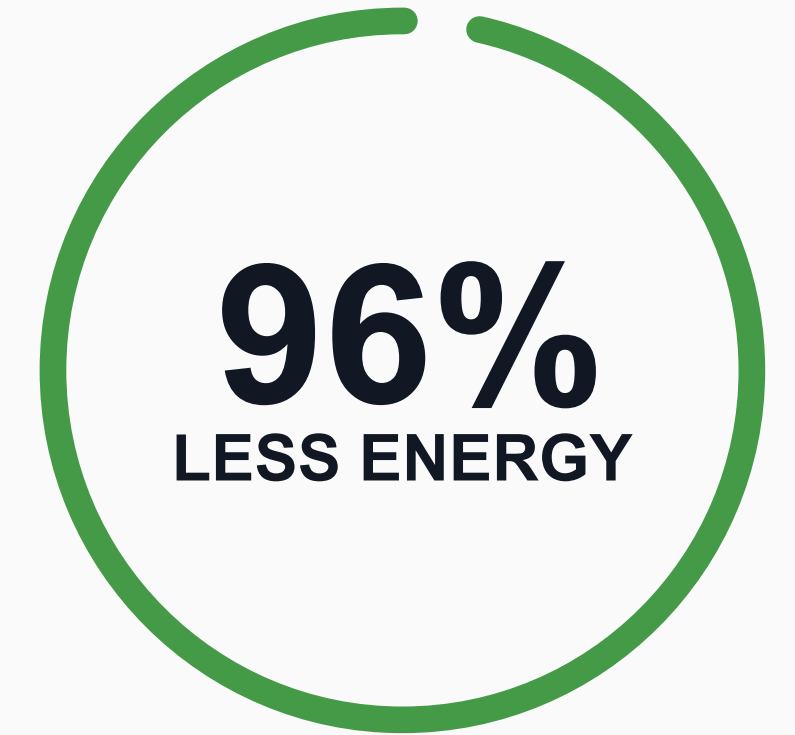

**Light Bulbs** - Re-purpose materials such as Glass, Metal, Mercury and Phosphor Powder (from old light bulbs to be used again)

**Cigarette Butts** - Recycled into Plastic Products such as Benches and Surfboards

**Electronics** - Metals, Plastics and Glass Components are Recovered and Recycled into new consumer products

96% Less Energy is required to re-purpose used aluminum recovered from light-bulb recycling when making new light-bulbs

## ABOUT TYMAC

Located throughout all Major Ports in British Columbia, Tymac is a leader in Marine Waste Management working with its Commercial and Industrial clients to reduce the amount of material they sent to the landfill and maximize on the amount of material that can be recycled or re-purposed.

## DONATIONS

Tymac diverts many items from the landfill that can otherwise be re-purposed and donated, supporting numerous not-for-profit organizations through British Columbia. Some Examples of items donated are Furniture, Clothing, Life Jackets, Blankets & Bedding, Hygiene Products, Appliances and Fitness Equipment.
